BIOGRAPHY

A self-motivated web developer with a deep interest in JavaScript. I develop websites and web applications. My core skill is based on JavaScript and React JS. I like to do most of the things using JavaScript and React JS. I can cope with any teammate quite frankly. I like planning before doing any project and build the project with care, love and functionality. I like traveling and reading books in my free time. I am available for any kind of job opportunity that suits my interests.

TECHNICAL SKILLS & TOOLS

Development: HTML5, CSS3, Bootstrap4, Material UI, React Bootstrap, React js, JavaScript, Firebase, Node JS, Express, MongoDB.

Development Tools: VS Code, Git, Github, Netlify, Heroku, Chrome dev tools, Figma, Adobe XD, Adobe PhotoShop etc.

Programming language: JavaScript (ES-6).

EXPERIENCE

Personal Project

01. Hot Onion Restaurant - Fullstack website.

- ❖ An e-commerce site of a restaurant, where users will be able to order their desirable food.
- ❖ Users can see all their order history, current order, and order details from their dashboard.
- ❖ When an admin logged in his dashboard, can see all order data, change the order status, add products and add another as an admin from his dashboard.

Technology: Bootstrap4, React JS, React-router-dom, react-file-base64, React Stripe, Jwt decode, Firebase, Node JS, Express JS, Dotenv Heroku, MongoDB etc.
