Jamalpur, Dhaka, Bangladesh

I'm a self-motivated full-stack web expert & developer with a deep interest in JavaScript, focused on crafting clean & user-friendly experiences. My core skill is based on JavaScript. I like to do most of the things using JavaScript, React JS, and Node JS. I like planning before doing any project and making the project with care, love, and functionality. I can cope with any teammate quite frankly. I like research, reading books, and traveling in my free time. I am available for any kind of job opportunity that suits my interests.
